MANAGEMENT'S DISCUSSION AND ANALYSIS
For the three months ended June 30, 2022

INTRODUCTION

This management's discussion and analysis ("MD&A") presents the financial condition and results of operations of Goldshore Resources Inc. for the three months ended June 30, 2022. This MD&A should be read in conjunction with the unaudited condensed consolidated interim financial statements for the three months ended June 30, 2022, and the audited consolidated financial statements and the notes thereto for the year ended March 31, 2022 and for the period from incorporation on October 23, 2020 to March 31, 2021, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). This MD&A complements and supplements, but does not form part of, the Company's consolidated financial statements.

This MD&A contains forward-looking statements. Statements regarding the adequacy of cash resources to carry out the Company's exploration programs or the need for future financing are forward-looking statements. All forward-looking statements, including those not specifically identified herein, are made subject to cautionary language included in this MD&A. Readers are advised to refer to the cautionary language when reading any forward-looking statements.

All dollar amounts contained herein are expressed in Canadian dollars unless otherwise indicated. This MD&A has been prepared as of August 24, 2022.

DESCRIPTION AND OVERVIEW OF BUSINESS

Goldshore Resources Inc. (formerly "Sierra Madre Developments Inc.") ("Goldshore" or the "Company") is a gold focused Canadian exploration company. The Company's head office is located at 918 – 1030 West Georgia Street, Vancouver, British Columbia, V6E 2Y3 and its registered and records office is at 401 – 353 Water Street, Vancouver, British Columbia, V6B 1B8. The Company was incorporated under the Business Corporations Act (British Columbia) on April 30, 2009.

On May 31, 2021, the Company closed the reverse takeover transaction contemplated in the amalgamation agreement dated January 25, 2021, amended and restated on February 16, 2021 (the "Amalgamation"). Pursuant to the Amalgamation, all Former Goldshore common shares were exchanged for common shares of the Company on a one-for-one basis and Former Goldshore amalgamated with a subsidiary of Sierra Madre, with the resulting entity to continue as a wholly owned subsidiary of the Company (the "Resulting Issuer").

On May 31, 2021, Sierra Madre Developments Inc. ("Sierra Madre") acquired all of the outstanding shares of Goldshore Resources Inc. ("Former Goldshore") by way of a three-cornered amalgamation in which a wholly-owned subsidiary of Sierra Madre amalgamated with Former Goldshore, with Former Goldshore surviving as a wholly-owned subsidiary of Sierra Madre under the name Moss Lake Project Inc. ("Moss Lake"). On June 4, 2021, Sierra Madre changed its name to Goldshore Resources Inc. ("Goldshore" or the "Company") and began trading on the TSX-V under the symbol GSHR. Former Goldshore has been identified as the accounting acquirer and, accordingly, the Company is considered to be a continuation of Former Goldshore, and the net assets of Sierra Madre at the date of the reverse acquisition are deemed to have been acquired by Former Goldshore.

As a result of the Amalgamation, the shareholders of Former Goldshore acquired control of the Company, thereby constituting a reverse acquisition of the Company. The Amalgamation is considered a purchase of the Company's net assets by the shareholders of Former Goldshore.

The Amalgamation was accounted for in accordance with guidance provided in IFRS 2, Share-based payments, and IFRS 3, Business combinations. As the Company did not qualify as a business according to the definition in IFRS 3, this Amalgamation does not constitute a business combination; rather, it is treated as an issuance of shares by Former Goldshore for the net assets of the Company and the listing of the Former Goldshore's shares.

GOLDSHORE RESOURCES INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the three months ended June 30, 2022

The purchase price was allocated as follows:

| | Amount |
|--|---------------------|
| Fair value of the Company's shares (3,677,623 post-consolidation common shares at \$0.65 per share) | \$ 2,390,455 |
| Fair value of replacement options | 302,456 |
| Consideration | 2,692,911 |
| Net assets acquired | |
| Cash and restricted cash | 10,320,318 |
| Receivables | 22,152 |
| Deferred financing costs | 881,876 |
| Accounts payable | (400,423) |
| Subscriptions received | (10,000,000) |
| Net assets | 823,923 |
| Listing expense | \$ 1,868,988 |

The Amalgamation was measured at the fair value of the shares that Former Goldshore would have had to issue to the shareholders of the Company, being 3,677,623 common shares, to give the shareholders of the Company the same percentage equity interest in the combined entity that results from the Amalgamation had it taken the legal form if Former Goldshore acquired the Company.

Subsequent to the Amalgamation, the Company finalized the values of the assets acquired and the liabilities assumed which resulted in a change to the net assets acquired, whereby cash and restricted cash increased by \$574,648, receivables increased by \$19,608 and accounts payable increased by \$87,185. Upon finalization of the purchase price allocation, these adjustments resulted in the listing expense decreasing by \$507,071, from \$2,376,059 to \$1,868,988. The prior year comparatives have been restated to reflect the finalization of the purchase price allocation during the year ended March 31, 2022.

MOSS LAKE GOLD PROJECT

On January 25, 2021, the Company entered into a purchase agreement (the "Moss Lake Agreement") with Moss Lake Gold Mines Ltd. and Wesdome Gold Mines Ltd. ("Wesdome") to acquire a 100% interest in the Moss Lake gold project located in Ontario, Canada (the "Transaction"). A summary of the Company's commitments in exchange for 100% of the project are outlined in the Commitments section of this MD&A.

The Company paid Wesdome a refundable deposit of \$1,000,000 concurrent with executing the Moss Lake Agreement. The deposit was applied to the cash payment due on closing. Future milestone payments totaling \$20,000,000 were recorded as an obligation to issue shares on the consolidated statement of financial position as at March 31, 2022. During the three months ended June 30, 2022, the Company issued 8,333,333 common shares to Wesdome with a value of \$5,000,000, resulting in remaining future milestone payments totaling \$15,000,000.

FINANCINGS

At June 30, 2022, there were 142,276,603 issued and fully paid common shares (March 31, 2022 – 115,458,038). At June 30, 2022, there were 25,040,401 (2022 – 31,300,501) shares held in escrow, subject to the following escrow release conditions: 15% released on December 4, 2022, 15% released on June 4, 2023, 15% released on December 4, 2023, and 15% released on June 4, 2024. Historic escrow releases included 4,173,400 released on June 4, 2021, 6,260,100 released on December 4, 2021, and 6,260,100 released on June 4, 2022.

On February 26, 2021, the Company and Former Goldshore closed brokered private placements by issuing 13,333,335 Flow-Through Subscription Receipts and 23,076,924 Subscription Receipts at a price of \$0.75 per Flow-Through Subscription Receipt and \$0.65 per Subscription Receipt for total gross proceeds of \$25,000,002. The subscriptions received in advance were held in escrow (the "Escrowed Funds"), including \$14,359,805 as restricted cash as at March 31, 2021, pending satisfaction of certain conditions ("Escrow Release Conditions"), including the closing of the Amalgamation and receiving conditional approval for the resulting issuer's shares being listed on the TSX-V. On June 1, 2021, the Escrowed Funds were released from escrow concurrent with the completion of the reverse takeover transaction and commencement of trading on the TSX-V. Based on the difference in price between the flow-through and non-flow-through financings, management accounted for the premium paid on the Flow-Through Subscription Receipts on a residual basis as a flow-through premium liability of \$1,333,334.

In connection with the closing of the private placements, the Company incurred cash share issuance costs and commissions totalling \$2,121,927, including \$1,068,717 which were recorded as deferred financing costs as at March 31, 2021. Additionally, the Company and Former Goldshore issued a total of 2,036,484 non-transferrable compensation options ("Compensation Options") to agents. Upon completion of the reverse take over transaction, each Compensation Option was exchanged for one compensation option of the Resulting Issuer, of which 772,560 and 1,263,924 are exercisable for one Resulting Issuer common share at a price of \$0.75 and \$0.65, respectively, for 24 months after the Escrow Release Date. The total fair value of the Compensation Options was determined to be \$730,978 using the Black-Scholes Option Pricing Model using the following assumptions: risk-free rate of 0.30%, expected life of 2 years, volatility factor of 100% and dividend yield of Nil. Of the total fair value of the compensation options, \$428,522 was recorded at March 31, 2021 and an additional \$302,456 was recorded during the year ended March 31, 2022.

GOLDSHORE RESOURCES INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the three months ended June 30, 2022

On November 23, 2021, the Company closed its previously announced private placement for aggregate gross proceeds of \$10,000,000 by issuing 10,810,692 flow-through common shares ("FT Shares") at a price of \$0.65 for gross proceeds of \$7,026,950 and 3,911,904 premium flow-through common shares ("Premium FT Shares") at a price of \$0.76 per Premium FT Share for gross proceeds of \$2,973,050. Based on the difference in price between the FT Shares/Premium FT Shares and the market price of the common shares, management accounted for the premium paid on the FT Shares/Premium FT Shares on a residual basis as a flow-through premium liability of \$724,762.

In connection with the Offering, the Company has paid to the Agents a cash commission equal to 6% of the gross proceeds of the Offering, of which 3% was paid in cash totalling \$299,025 and 3% was paid through the issuance of 440,179 common shares of the Company with a fair value of \$277,313. In addition, the Company issued to the Agents 880,355 compensation options of the Company exercisable for a period of 24 months at an exercise price of \$0.65. The fair value of the compensation options was determined to be \$287,586 using the Black-Scholes Option Pricing Model using the following assumptions: risk-free rate of 1.05%, expected life of 2 years, volatility factor of 100% and dividend yield of Nil. LIQUIDITY AND CAPITAL RESOURCES

Goldshore has no operations that generate cash flows and the Company's future financial success will depend on the discovery of one or more economic mineral deposits. This process can take years, can consume significant resources and is largely based on factors that are beyond the control of the Company's management. As at June 30, 2022, the Company's current assets exceeded its current liabilities by \$10,774,970 (March 31, 2022 - \$9,842,123) and had an accumulated deficit of \$13,653,760 (March 31, 2022 - \$14,226,042). The Company currently has no source of revenue.

For the foreseeable future, the Company will continue to rely upon its ability to raise financing through the sale of equity. This will be dependent on the Company identifying suitable projects that will attract investors. Which will also require a general positive investor sentiment, which in turn will be influenced by a positive climate for precious metals exploration, a Company's track record and the experience and calibre of the Company's management, as well as global economic outlook. There is no assurance that the Company will be able to access equity funding at the times and in the amounts required to meet the Company's obligations and fund activities.

On March 11, 2020, the World Health Organization characterized the outbreak of a strain of the novel coronavirus ("COVID-19") as a pandemic which has resulted in a series of public health and emergency measures that have been put in place to combat the spread of the virus. The duration and impact of COVID-19 is unknown at this time, and it is not possible to reliably estimate the impact that the length and severity of these developments will have on the financial results and condition of the Company in future periods, including the possible impact on future financing opportunities. There are various community restrictions and health and safety measures in Ontario, Canada that may prohibit or delay exploration programs from proceeding. Operations will depend on obtaining necessary permits, field supplies, and contractor services, and safeguarding personnel during the outbreak, which may be prohibitive or costly.

Operating Activities

Net cash used by the Company in operating activities for the three months ended June 30, 2022, was \$1,944,452.

GOLDSHORE RESOURCES INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the three months ended June 30, 2022

Investing Activities

Net cash used in investing activities for the three months ended June 30, 2022, was \$7,995,581, which was due to expenditures incurred on Moss Lake.

Financing Activities

Net cash provided by financing activities in the current period was \$9,717,154. The current period cash was provided by the private placements closed in April 2022 and May 2022, net of share issuance costs and the repayment of lease obligations.

The critical judgements and estimates that management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements are as follows:

Going concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures and meet its liabilities for the ensuing year involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

Impairment of long-lived assets

The carrying value and the recoverability of long-lived assets, including exploration and evaluation assets, are evaluated at each reporting date. Management assesses for indicators of impairment, which includes assessing whether facts or circumstances exist that suggest the carrying amount exceeds the recoverable amount.

Economic recoverability and probability of future benefits of exploration and evaluation costs

Management has determined that exploration, evaluation and related costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including geologic and other technical information, history of conversion of mineral deposits with similar characteristics to its own properties to proven and probable mineral reserves, the quality and capacity of existing infrastructure facilities, evaluation of permitting and environmental issues and local support for the project.

Valuation of stock-based compensation and compensation options

The Company uses the Black-Scholes option pricing model for the valuation of stock-based compensation and compensation options. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate, forfeiture rate, risk-free market interest rate, expected volatility in the price of the underlying stock and expected life of the instruments. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

Income taxes

The Company recognizes deferred tax assets for deductible temporary differences, unused tax losses and other income tax deductions only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and other income tax deductions can be utilized. In assessing the probability of realizing the income tax benefits of deductible temporary differences, unused tax losses and other income tax deductions, management makes estimates related to expectations of future taxable income, applicable tax planning opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities. The likelihood that tax positions taken will be sustained upon examination by applicable tax authorities is assessed based on individual facts and circumstances of the relevant tax position evaluated in light of all available evidence.

As at June 30, 2022, the Company has not recognized any deferred tax assets for deductible temporary differences. Changes in any of the above-mentioned estimates can materially affect the amount of income tax assets recognized. In addition, where applicable tax laws and regulations are either unclear or subject to varying interpretations, changes in these estimates can occur that materially affect the amounts of income tax assets recognized. The Company reassesses unrecognized income tax assets at the end of each reporting period.

Flow-Through Premium Liability

Pursuant to the terms of the flow-through share agreements, flow-through shares transfer the tax deductibility of qualifying resources expenditures to investors. On Issuance, the Company bifurcates the flow-through shares into i) a flow-through share premium, equal to the estimated premium, if any, investors pay for the flow-through feature, which is recognized as a liability, and ii) share capital. Upon expenses being incurred, the Company derecognizes the liability on a pro-rata basis and recognizes a deferred tax recovery for the amount of tax reduction renounced to the shareholders.

FINANCIAL AND OTHER INSTRUMENTS

The Company's financial assets and liabilities are classified as follows:

| | June 30, 2022 | March 31, 2022 |
|---|----------------------|-----------------------|
| Financial assets: | | |
| <i>Fair value through profit or loss</i> | | |
| Cash and cash equivalents | \$ 11,882,880 | \$ 12,105,759 |
| Amounts receivable | 1,615,268 | 837,852 |
| Financial liabilities: | | |
| <i>Amortized cost</i> | | |
| Accounts payable and accrued liabilities | \$ 2,318,987 | \$ 2,469,585 |

Accounts payable and accrued liabilities includes amounts due to related parties.

The fair values of the Company's cash and restricted cash are carried at fair value in accordance with level 1 of the fair value hierarchy. The Company's accounts payable and accrued liabilities approximate their carrying amounts due to the short-term nature of these instruments.

The Company's risk exposures arising from financial instruments and the impact on the Company's financial statements are summarized below:

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. As at June 30, 2022, the Company was exposed to credit risk on its cash. The Company's cash is held with a high credit quality financial institution in Canada and as at June 30, 2022, management considers its exposure to credit risk to be low. The Company's maximum exposure to credit risk is equal to the carrying amount of its cash and cash equivalents.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company manages liquidity risk by maintaining adequate cash and managing its capital and expenditures.

At June 30, 2022, the Company had cash and cash equivalents of \$11,882,880 and accounts payable and accrued liabilities of \$2,318,987 with contractual maturities of less than one year. The Company had sufficient cash to meet its current liabilities as at June 30, 2022. The Company assessed its liquidity risk as low as at June 30, 2022.

Market risk

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. The Company is not exposed to significant currency, interest or other price risk.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is exposed to foreign currency risk to the extent that it has monetary assets and liabilities denominated in foreign currencies. As at June 30, 2022, the Company was not exposed to foreign currency risk.

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer or by factors affecting all similar financial instruments traded in the market. The Company is not exposed to other price risk as at June 30, 2022.
